SUMMARY

Final-year Bachelor of Information Technology student at North-West University with a strong interest in software development, systems analysis, and problem solving. Experienced in developing applications and database solutions through academic projects using Python, C++, C#, SQL, HTML, and CSS. Passionate about learning new technologies and applying technical knowledge to solve real world problems. Seeking an opportunity to begin my career in the IT industry while continuing to develop my technical and analytical skills.

EDUCATION

North West University

Feb 2024 - Present

Bachelor of Information Technology

Relevant Modules:

- Object-Oriented Programming
 - Data Structures and Algorithms
 - Systems Analysis and Design
 - Artificial Intelligence
 - Database Systems
 - Software Engineering
 - Web Development
-

SKILLS

Technical skills

- Python
- C#
- C++
- HTML
- CSS
- Java

Databases

- MySQL
- SQL Server

Technical Knowledge

- Object-Oriented Programming
- Data Structures & Algorithms
- Database Design & SQL
- Systems Analysis
- Software Development Lifecycle
- Responsive Web Design
- Version Control

ACADEMIC PROJECTS

Old Age Home Management System

- Collaborated in the development of a desktop management system.
- Developed database functionality and user interfaces using C# and SQL Server.
- Implemented CRUD operations and data validation.

Database Design Projects

- Designed relational databases using normalization techniques.
- Wrote SQL queries involving joins, grouping, filtering, and aggregate functions.
- Created ER diagrams and implemented database schemas.
